Pooja Chaudhary

Computer Science Teacher & Full-Stack Developer

poojachaudhary0912@gmail.com | linkedin.com/in/pooja-chaudhary-001527230 | github.com/chaudharypooja12

PROFESSIONAL SUMMARY

M.Sc. Computer Science post-graduate with professional experience in coding education, technical consulting, and full-stack web development. Skilled in teaching programming through engaging, practical lessons and in building responsive applications with Next.js, JavaScript, REST APIs, and relational databases.

PROFESSIONAL EXPERIENCE

Coding Teacher — April 2024 - Present

Codingal

- Teach C++, Python, and JavaScript through interactive coding sessions.
- Develop engaging curriculum and mentor students in problem-solving.

Technical Consultant (Freelancer) — March 2024 - Present

Self-Employed

- Build Python and Next.js projects and provide technical consulting to clients.
- Develop full-stack applications, RESTful APIs, and database solutions.

Teacher - Computer Science — April 2023 - March 2024

GD Goenka Public School, Jhajjar

- Developed and delivered Computer Science lessons using hands-on learning.
- Conducted assessments, adapted teaching strategies, and supported extracurricular activities.

EDUCATION

M.Sc. Computer Science — Aug 2020 - Aug 2022

Maharshi Dayanand University, Rohtak | First Division

B.Sc. (General) — Aug 2016 - Jun 2019

Maharshi Dayanand University, Rohtak | First Division

12th, Computer Science — Jun 2015 - Mar 2016

Ganga International School | First Division

10th — Jun 2013 - Mar 2014

Ganga International School | First Division

TECHNICAL SKILLS

- **Frontend:** Next.js, JavaScript, TypeScript, Tailwind CSS, shadcn/ui, HTML
- **Backend & Databases:** REST APIs, Supabase, Resend, PostgreSQL, SQL, MySQL
- **Programming:** Python, C, C++, Visual Basic
- **AI & Automation:** ChatGPT, Claude Code, Gemini, Meta AI, OpenAI, AI Automation
- **Tools:** VS Code, Cursor IDE, OpenCode, GitHub, Vercel, MS Office, Gamma, Google Flow
- **Professional:** Problem Solving, Analytical Thinking, Communication, Adaptability, Teaching

PROJECTS

Portfolio Website

- Responsive portfolio with a playful claymorphism design, accessible UI, light and dark themes, and Vercel deployment.
- **Technologies:** Next.js, TypeScript, Tailwind CSS, shadcn/ui

Attendance Management System

- Application for efficiently tracking and reporting employee attendance.
- **Technologies:** Employee Tracking, Management System, Reporting

Misri Kitchen Website

- Business website for Misri Kitchen, built with Next.js for fast, responsive browsing.
- **Technologies:** Next.js, Website
- **Live:** misrikitchen.com

Document Collector

- Document collection tool powered by MBWays, with a Next.js frontend and a PostgreSQL backend.
- **Technologies:** Next.js, PostgreSQL, Document Collection
- **Live:** documentorcollector.mbways.com

Interactive Learning App

- Frontend-only interactive learning app built with Vite for Riya and Siya to make lessons engaging and hands-on.
- **Technologies:** Vite, Frontend, Vercel
- **Live:** interactive-learning-orcin.vercel.app

Tic-tac-toe

- Human-versus-computer strategy game with three AI difficulty levels, round scoring, and accessible keyboard play.
- **Technologies:** React, Game AI, Minimax, Accessibility

Snake

- Responsive arcade game with food collection, snake growth, progressive speed levels, keyboard and touch controls.
- **Technologies:** React, Game Loop, Responsive Controls

Spaceship Survival

- Asteroid-dodging survival game with lives, escalating levels, responsive controls, and persistent best results.
- **Technologies:** React, Animation, Collision Detection

CERTIFICATES & ACHIEVEMENT

- **Certificates:** NSS Certificate; Data Analysis and Visualization
- Dean's List - Outstanding academic performance in M.Sc. Computer Science.

LANGUAGES

- **Hindi** (fluent)
- **English** (fluent)
